

What to do with a degree in

KINESIOLOGY

UNIVERSITY OF
CALGARY

Kinesiology is the study of human movement and it is fundamentally concerned with human health and wellness. As a result, you will find that a Kinesiology degree is an excellent springboard to many careers in sports, recreation, health and fitness, and education.

This profile is a starting point for your career exploration. It may help you identify options and guide you in conducting further research, reviewing occupations or connecting with people. It is not intended to list every possible career path, or to limit you to what you see here. This is a tool to guide discovery and uncover opportunities that fit you.
