FACULTY OF KINESIOLOGY Health and Wellness Lab

INVITATION TOSPONSORS

This year marks our 7th annual Drive for Thrive Golf Tournament (May 30th, 2022), to raise funds and awareness in support of the University of Calgary's Thrive Centre. The Thrive Centre is a free fitness facility at the University of Calgary for cancer survivors and their support persons. Since 2015, we have raised over \$100,000 to support the Thrive Centre, as well as train over 700 new graduate and undergraduate student volunteers, purchase new exercise equipment for our gym space, and expand our programs to locations across Calgary, Alberta, and now Canada. None of this would have been possible without the support and unwavering commitment of our community sponsors, donors, and volunteers.

All funds raised at this event will support our exercise oncology programs as we implement sustainable communitybased programs in Calgary, Alberta, and across Canada. Support will ensure we can hire the best exercise professionals required to expand our programs and reach more cancer survivors. Our exercise oncology programs, including ACE (Alberta Cancer Exercise), EXCEL. (EXercise for Cancer to Enhance Living Well), and tailored programs for brain tumour patients and head and neck cancer are critical supportive cancer care resources. We are committed to working with our health care system to ensure sustainable implementation – so that all individuals living with cancer can access exercise as a wellness resource.

We invite you to consider a sponsorship opportunity detailed in this package. If you require any additional information in order to make the decision to support this year's tournament, please don't hesitate to contact us directly. All contributions are truly appreciated.

If you're just looking for an enjoyable day on the links, Drive for Thrive is an excellent opportunity to network outside the office (and showcase your golf skills) while supporting a great cause. Individual and team registration will be available online soon.

Together we can build a future where the goal is THRIVING, not just surviving!
