

KINESIOLOGY PRACTICUM DESCRIPTION

Practicum Position Title: Rehabilitation Assistant

Agency: [Association for the Rehabilitation of the Brain Injured \(ARBI\)](#)

Location: 3412 Spruce Drive SW, Calgary AB

Terms Available: Fall or Winter

Number of Positions: 1-2

Project Duties/Responsibilities:

Association for the Rehabilitation of the Brain Injured (ARBI) is a community based non-profit organization providing rehabilitation and recreation based programming to individuals with moderate to severe acquired brain injury including strokes. Individualized rehabilitation programs are developed by professional therapists (physiotherapists, occupational therapists and speech-language pathologists) and implemented by volunteers and practicum students.

After extensive training and with on-going support from *ARBI* staff, practicum students will be trained to implement an established 1:1 rehabilitation program. Duties and programs will reflect the specific client's needs and abilities. The majority of the clients' programs will include physiotherapy, occupational therapy and speech-language pathology. However, each of the disciplines will be individualized to the clients' needs and not all clients have all 3 disciplines in their program. Placement is based on the student's academic goals whenever possible as well as the student's availability.

Practicum student duties **may** include:

- Instruction provided in transferring techniques. This can be training on weight-bearing transfers or on the use of specific mechanical lifts. Staff support given for client transfers will vary greatly depending on client abilities.
- Training to implement a 2.5 hour rehabilitation session which will include components of physiotherapy, occupational therapy and speech-language pathology in a program designed for a specific client.
- Physiotherapy training such as specialized equipment (i.e. tilt table, Nustep, Motomed). It may also include exercises to address strength training, coordination, speed of movement, weight-bearing and assisted walking. After training, some exercises will be carried out independently by the student or with support
- Occupational therapy training such as specialized equipment (i.e. SaeboFlex, SaeboMas). It may also include exercises to address coordination, speed, initiation of active movement and memory.
- Speech-language pathology exercises can include work on reading, writing, memory, auditory recall, word retrieval and speech clarity.
- Opportunities to assist with group rehabilitation programming. Under the supervision of *ARBI* staff, the practicum student will assist in guiding an exercise group. Exercises are all done in wheelchairs and consist of various stretches and range of motion. Depending on the practicum student's goals, training can lead up to planning and leading one or more sessions under the guidance of staff.
- Attending/observing client assessments, therapist meetings, team meetings and staff meetings. This is intended as an opportunity for the student to observe various professional practices.

- Providing supervision/support during client arrival and departure times including welcoming clients at arrival before rehabilitation aides arrive to start program, assisting with removal of outer wear, repositioning in wheelchair (if needed) and addressing concerns (if needed). Assist in supervision/support of clients while waiting for transportation (Handi-Bus) and after program (dependent on student's academic schedule). Appropriate training will be provided and *ARBI* staff will be available during these times.
